

Hi Gary

Welcome to In the Pipeline - Summer 2014 edition

Welcome to the Summer 2014 edition of In the Pipeline. By sharing our successes, future developments and innovations, you'll understand how we're committed to delivering a better service to you.

UKDN Waterflow are now one of 200 companies globally to have received greenhouse gas accreditation from CEMARS, demonstrating our carbon leadership. We continue to set the highest standards.

And with recent awards success for both innovative project management and health and safety, and new appointments that strengthen our top team, we can help you to achieve superb cost effective results for any issues in the last half of the year.

Nick
Nick Harris, CEO

Mutant super rats

Hordes of brown rats are on the increase following the storms earlier in the year.

Don't let them affect your business.

What's the solution?

Proactive maintenance is key to a Facilities Managers success

According to the Royal Institute of Chartered Surveyors, Facilities Managers need to be more visible and transparent to customers and others linked to the organisation.

How does proactive maintenance help?

New additions to top team

Read how we are building for success with some strategic new appointments for the business.
